

**EXECUTIVE OFFICE
OF THE GOVERNOR**

Executive Order 01-161

WHEREAS, it is the intent of Executive Order 01-161 that a statewide system of disability service and resource information be developed whereby individuals with disabilities, family members, professionals assisting individuals with disabilities, and the public can easily ascertain information concerning disability-related services and resources available in the state.

WHEREAS, the Clearinghouse on Disability Information Office shall develop and maintain a statewide toll-free information and referral system that provides information and referral for all disability-related services, programs, assistance, and resources, as well as generic services and assistance that individuals having disabilities and their families may need. The purpose of this information and referral system is to ease the complexity of systems that individuals having disabilities and their families must identify and navigate in order to secure the assistance needed by providing both information on where to find the service and an understanding of the processes required to access the service.
