KSC disABILITY

Mentoring Day 2022

**Space and
Lunar Surface
Operations —
The Journey
Begins at 1 MPH**

At Kennedy Space Center, we created a virtual tour to be used for disABILITY Mentoring Day 2022. Due to COVID-19, we are unable to support an in-person event, so we are bringing the event to YOU virtually! Individuals, entire classes or groups are welcome to attend. This is an opportunity to evaluate personal goals; target career skills for improvement; and explore career paths.

* The next time we land on the moon, it will include a woman and a person of color.

Virtual Event sponsored by:
Disability Awareness and Action Working Group (DAAWG)
and John F. Kennedy Space Center (KSC)

If you need assistance, please contact: **Tara Miller**
tara.s.miller@nasa.gov or (321) 289-8671

[Click Here to Register for Virtual Event by November 2, 2022](#)

**Please join us virtually:
November 3, 2022
10 a.m. to 11 a.m.**

Joey D'Souza
Vice President, External Engagement
Cell: (850) 264-8019

Want to learn about NASA before the mentoring day?

Join **NASA's Virtual Guest Program** to start receiving invitations to launches and milestones. As a virtual guest, you have access to curated resources, schedule changes, and mission specific information straight to your inbox.

This program is suitable for students and job seekers from the age of 16 years old and up. At the initial viewing, there will be a Q&A session. You will need the ability to watch a live stream with videos. Please register at the above link. A few days prior to the event, a link will be provided to those that are registered for the event. The event will also be recorded, so if you cannot make the live event, you will be able to view at a later time, but you will not have the ability to ask questions. To view last year's event, [click here](#).
